

Dear Friends,

July means internship. This will be our fourth year being a mentor couple. Ten units are planning to participate in this year's summer internship. This year, OC has scheduled all of its internship activities at a nearby InterVarsity camp called Bear Trap Ranch. We are planning to stay on-site for the four full weeks that are scheduled this year for internship.

Internship is an acquisition learning time for OC candidates. It will be a time for the OC candidates to learn about themselves. This will happen through a variety of intense team-building activities. As each OC candidate gives their life map, we will have the opportunity to get to know them better. There are daily sessions planned where the OC candidates will be introduced to the various facets of OC. Besides the responsibilities associated with being a mentor couple—which includes sitting in on the different sessions and in being proactively involved in the different planned activities, we are scheduled to spend one full day moderating a series of sessions that are relevant to being integrated into an OC field missionary team.

We do want to ask for your prayers regarding our time at Bear Trap Ranch. It will be an intense time. We have looked forward the past three years to being a part of this time. The elevation at Bear Trap Ranch is over 9,000 feet. Nancy has not recouped as well from her procedure and from her surgery as she had hoped that she would. Her doctor is having her have additional tests done. Sitting for hours on chairs that tend to be uncomfortable and staying for four weeks in a rustic room will probably tax us. Please continue to pray for our health. Thank you.

We really need to block off some time to do some traveling. We want to personally talk with you about our financial support needs. We are continuing to receive at least \$1,500 a month less than what our required monthly support budget asks us to raise. We would like to ask you again to specifically pray for our monthly financial support.

Thank you again for coming alongside us as partners through your genuine interest in us and in the ministries that we have been involved with over the years, through your prayers and through your financial support. God bless you.

Sincerely, in Christ,
