

Dear Friend,

Thank you very much for your prayers during our January 26-February 7 short-term dental/medical/ministry trip to Guatemala. No one got sick. Nothing was lost. There were no serious incidents. It was a very special time of being able to be involved in seven different churches and preaching points in eastern Guatemala. It was a time of being very blessed by our Guatemalan hosts – as they communicated enjoying and appreciating our being in their churches and in their communities.

The photos (*right*) have Jack pulling teeth in La Pintada – with a yacht passing by on the Rio Dulce; Jack pulling teeth in the middle of children playing around him at the K'iche Church in Livingston, and Sandy, Natalie, and Luis Gilbert entertaining as clowns during a planned children's activity time.

When you receive this letter, we should be back in Guatemala. We are scheduled to join from March 31-April 9 a short-term youth ministry team. We are planning to take this youth team to the same places that we went to a couple of months ago, plus also go to Lake Atitlan – where we are planning to spend a day in Santiago Atitlan and then a day in San Lucas with them.

Please pray again for safety and for good health during our trip. Please pray that the time will be an experiential learning time as well as a life-changing time for each one of the eight high school young people who will be with us in Guatemala.

Thank you for your prayers for Nancy. It has been a slow journey for Nancy as the ability to use her right hand has been very slow in returning. We are very grateful for your kindness and for your generosity. Please continue to pray regarding our support needs. Thank you.

Sincerely,
